purchased on Month / Day / Year (Please Fill in	n the full year (i.e.: 2020)	
SKUs & Quantity Purchased:		
Certified by:		MAN
Date issued:		00mstr (4") schurre / 125s0
Signature:		
Fence Armor and Postsaver's Signature Series' Above & Below Protection safeguards against in-ground rot, lawn care maintenance damage, and positively impacts the long-term, global environmental impacts of premature, full fence or post replacement. Extend wood post life span by 20 years with Postsaver post sleeves. Its dual-layer barrier design heat shrinks to posts for a long-lasting, high-performance, air and water-tight seal that prevents in-ground chemical leaching while locking out moisture, rot, and fungi that live in the first 6" of earth. Adding Fence Armor Post Guards and Post Caps to new and existing posts stops additional damage from occurring above ground. Easy-to-apply Post Caps protects post-end-grain from in-climate weather causing posts to crack, warp and twist prematurely. Applying Post Guards at the base of each post, 2" above the ground line prevents grass trimmer damage, while it enhances the life and beauty of every post, year after year. All Fence Armor steel guards and powder-coated finishes are guaranteed to last for up to 5 years with normal wear and tear.	NG LIFE POST	LONG LIFE POST
